

My Holiday Wish List

Just in case you were wondering, I have been very good this year. I did not cuss (much); I did not drink (more than the elephant I was with); I did not hit my sister or brother (although I thought about it); I did not eat too much (very often); and, I was nice to my parents and friends (mostly). So as a reward for my good behavior this year, I was thinking you might be in a position to reward me with a simple gift or two. To make it completely effortless for you, I have prepared a list of a few things that you might consider. I have also made an arrangement with my friends at Oceanic Ventures to help you with your shopping. They have even agreed to wrap the gifts for free and deliver them to me.

Thank you for your overwhelming generosity. I look forward to opening your gifts during this holiday season. Please call Ann, Eric, Alex or Ashton (713.523.3483) as soon as possible so you have time to buy me a larger gift.

Sincerely,

Under \$100
